PLS-CADD Hands-On Training

We recommend you bring your own laptop which must comply with the course laptop requirements. Computer rental is available for a $300 weekly fee. If you prefer to rent a computer, please indicate that choice on the enrollment form.

Computer Software Used in This Course
The computerized design tool capabilities presented in this course will be illustrated through design examples using the programs PLS-CADD, PLS-POLE, and TOWER, developed by Power Line Systems, Inc. These programs and classroom example files will be installed on each student’s computer for students to use during class.

Computer Hardware Requirements
If you are already a PLS-CADD user, please bring a laptop on which you have previously run the PLS-CADD software. Your laptop must have Microsoft Windows 7, 8, or 10 (32 or 64 bit) installed. It must also have at least 200 MB of available disk space and an available USB port for hardware key connection. An external two-button mouse is also recommended.

If you have not previously installed PLS software on your computer, you must have administrative rights on your computer so that the hardware key drivers can be installed.

Additional computer hardware and software information will be e-mailed to you several weeks before the course starts.

Computer rental is available for a $300 weekly fee. If you prefer to rent a computer, please indicate that choice on the enrollment form.
